PROJECTS

The Toolbox

- Built the clean, user-friendly UI for 3D Toolbox – a web platform that lets people in DR Congo easily browse and buy premium industrial tools from brands like SKF and Bosch.

Pharos

- Built the entire UI/UX for Pharos - a clean, real-time raffle platform where users join on-chain raffles, track points, check live leaderboards, complete quests, and claim prizes

Hermirror.life

- Developed the full UI/UX for HerMirror – a private, women-centric space with a caring AI chatbot for honest health talks and a beautiful blog packed with wellness tips, all backed by Sanity CMS.

Agentic Content Generator

- Built the UI and part of the backend (including Google Sign-In) for Agentic Content Generator – a dead-simple tool that lets anyone spin up high-quality tweets, threads, or blog posts using AI agents in just a few clicks.
